

Tedbree Developer Assessment

We have a few screens contained in the Figma File below . Each Screen is selected to test a candidate's skills at some level. We will score this Assessment on the following:

1. Cleanliness of the codebase
2. Simplicity of design
3. Proper use of best practices
4. Correctness of implementation

Create the Job Listing Web App using **VueJS/React/Svelte & TailwindCSS**.

In order to be successful, the acceptance criteria below must be met.

1. A **Business/User** should have the ability to create, update and delete a job.
2. A **Guest** Should be able to browse through a List of Jobs
3. A **Guest** should be able to view and apply for a Job
4. A **Guest** can search for a Job
5. A **Business/User** can see a list of jobs they created

Deploy the App on Netlify or Heroku then send the URL and GitHub repository link to us at jobs@tedbree.com

API Resource: [BASE URL:<https://api.jobboard.tedbree.com/v1>]

Select Options:

Job Types: Full-time, Temporary, Contract, Permanent, Internship, Volunteer

Work Conditions: Remote, Part Remote, On-Premise,

Categories: Tech, Health care, Hospitality, Customer Service, Marketing

Figma File:
